Share price indices. Rebased

Annual average (1995 = 100)

Share price indices aim to reflect movements in share prices in the market which they represent. The number of stocks used in the national indices varies, as well as their weightings and the formula used (Laspeyres-price-index, Paasche-price index). Here the share price indices were rebased to 1995 = 100.

Ο Πίνακας αυτός δείχνει
ότι οι χρηματοοικονομικές
αλλαγές της περιόδου
1999-2000 ήταν
παγκόσμιο φαινόμενο
που επαναλαμβάνεται
και πάλι...
