Dear Mr. Jose Juan Ruiz Gomez,

The Pantios University of Athens organizes a series of lectures on economic and political problems of the European intergration. We would be glad if you could hold a lecture on Spanish economic policy and the problems of adaptation to the EMU program.

I was told by Mr. Takis Thomopoulos that having discussed the above you considered a lecture as possible.

I suggest that you visit Athens, in case you accept our invitation, the last week of April or in May. The university will cover the expenses of your flight to Athens and the accomodation for two nights.

I hope that you will accept our invitation and we will have the opportunity of a very interesting discussion.

Yours sincerely,

C. Simitis
