Dear Mr. Kosmo,

I would like to thank you for your kind words of sympathy and solidarity for the Greek people who are experiencing the consequences of the earthquake that struck Athens. I am also really sorry you had to postpone the Athens Forum due to the nature's outburst. It is indeed understandable, as for all physical phenomena, the uneasiness it has caused to the unfamiliar with earthquakes participants. I believe it will not be a major inconvenience for the Mentor Group to reschedule the Athens Forum for Spring 2000, since it was already thoroughly organized.

Looking forward to hearing from you again and remaining with the most cordial good wishes.

Yours sincerely

Professor George Papadimitriou
