

Θέμα : Απάντηση στην επιστολή του Δημάρχου Σόφιας

Athens, April 2 1999

Dear Mr. Mayor,

On behalf of the Prime Minister, I would like to thank you for your letter of February 25, 1999 including a communication of the Sofia Statement.

The Greek Government indeed shares the view that, in order to achieve the benefits of sustainable development, central and local authorities have to cooperate and combine their mutual efforts. Needless to say that active involvement of the society is also required.

Please note that your letter, along with the Statement, have been already communicated to the Minister of the State who is the competent authority for the cooperation of the different levels of government.

Yours sincerely
